FIELD REPORT NO. <b>MOE-11566</b>	
SUBJECT <b>Ore Shipments from Siegen-Schoenen to Frankfurt/Oder by Rail</b>	
DATE OF EVALUATION <b>21 September 1951</b>	SOURCE <b>Cable</b>
VALUE TO CUSTOMER	
EVALUATION OF CONTENT	
CUSTOMER COMMENT: <b>ZACALYCO</b>	
<p>It is not normal for uranium ore trains to be dispatched from Siegen-Schoenen although there have been some indications that a small amount of ore is sent to Chemnitz and is prepared for shipment there. The normal number of freight cars in a uranium ore train from Wismut is 45 to 50 instead of the 6 and 14 mentioned in this report. It is desired that the source be further questioned about the origin of the ore, the amount of processing accomplished at Chemnitz, quantity sent, etc.</p>
